//

We are very pleased that IEC Tehnopolis has recognized the importance of the existence of the ICT cluster in Montenegro and through the support program, has enabled the establishment and functioning of a good part of the activities of the association. We are sure that in the coming period we will intensify cooperation with Tehnopolis and jointly implement numerous activities. It is also planned to draft an IT Manifesto within which ICT Cortex, together with Tehnopolis and other strategic partners from the IT community, will define priority projects and key points for the development of the IT sector in Montenegro.

The Code Hub Mostar coworking space has helped me extremely in my career development over the past 2 years since I've been using it. Since Mostar doesn't have a similar space, it is of great importance for this city. The main features are the working atmosphere, excellent energy and the opportunity to make new friendships. Whether you are a student or a freelancer, you will not go wrong by choosing Code Hub!
